Ness Turf Adds Ventrac 4500 Tractor to Expanding Product Lines

Ventrac 4500 Tractor Provides Superior Stability and Versatility

Kapolei, HI -- Ness Turf Equipment, the premier distributor of ag and turf solutions in Hawaii and the Pacific Region, is proud to become a preferred equipment provider for Ventrac compact tractors and attachments with the addition of the 4500K, 4500P, 4500Y, and 4500Z models to our expanding product lines.

“Ness Turf is excited to provide customers with a powerful piece of equipment that offers new ways to help you get work done more efficiently,” says Leonard Smith, General Manager. “Ventrac is one of the most versatile tractors available with unmatched performance to operate on turf, terrain, and slopes.”

With an articulating and oscillating frame, all-wheel drive, and hydraulically powered steering, the Ventrac 4500 Tractor provides superior traction, stability, and versatility. An innovative weight transfer system shifts some of the front weight onto the tractor, giving operators better visibility so they can see the work out in front of them when mowing close to landscapes or other objects.

The 4500 also increases safety for maneuvering on tough terrain and steep slopes without disturbing turf. Plus, the exclusive Ventrac mount system easily connects attachments to transform your tractor into a productivity powerhouse.

For more information on the new Ventrac 4500 Tractor, contact your Ness Turf Sales Representative at 808.486.8330.

About Ness Turf

Ness Turf Equipment has been providing ag and turf solutions for over 50 years in Hawaii and the Outer Islands, Guam, American Samoa, and Saipan. Ness Turf Equipment offers unparalleled customer service and the best sales, parts and service available for golf courses, sports fields, and state and federal municipalities. Ness Turf Equipment is proud to be part of the Ness family of companies. Every year since 2005, the company has been named one of Hawaii’s top 250 businesses by Hawaii Business magazine.
